

TO LEARN WAR AS IT IS FOUGHT

K. N. G. Will Hold Encampment at Leavenworth.

Plans for Ten Days' Mimic War in Preparation.

TO BE ALL SORTS OF DRILLS

Under the Eyes of Army Officers and State Officials.

Lessons Learned in Europe Will Be Illustrated.

Kansas National Guardsmen will hold their annual encampment at Fort Leavenworth, August 16-26, according to announcement by Charles I. Martin, adjutant general. Plans for the ten day mimic warfare are now being worked out from the adjutant general's office and the maneuver grounds will be prepared for the outing at once.

Last week officers of the national guard attended at the state training school at Leavenworth. About 100 officers of the guard spent the week at the fort. In August the state troops will display their drill and state officials and army officers will view the work of the guardsmen.

Nearly a month will be required to prepare the grounds for the encampment and an expenditure of several thousand dollars will be necessary to make advance arrangements for the soldiers. South Merritt hill, midway between Leavenworth and the post will be the site of the encampment this year. In former years the national guardsmen have held their maneuvers at Fort Riley, regarded as one of the most desirable maneuver grounds in the country. The change to Leavenworth this year means much extra work and expense.

The program for the ten days' outing has not been completed, except in a general way. The first two days will be spent in company and battalion drills and all manner of military exercises will find a place on the program. The two regiments of national guards and the Leavenworth troops will attend the encampment.

Results of the European war will have an echo in the outing of the Kansas soldiers. The study of the mean hours of hard work as well as pleasure. Lessons in modern warfare will be taught the guardsmen and some of the new maneuvers and strategic acts in handling of European troops will be taught the Kansas soldiers. In many respects the encampment this year is the most important and strenuous held in this state.

Preceding the maneuvers at Leavenworth, Battery A of Topeka will spend ten days in training, beginning July 14. Two Missouri batteries will also visit Fort Riley in July.

ROAD COLLISION

Two Cars Smash Together in North Topeka.

Two Members of the Darling Family Are Hurt.

Louis O. Darling, a farmer living five miles west of Hoyt, sustained broken collar bone, a wrenched knee and severe bruises on his right side, Tuesday evening at 5:50 o'clock, when the car with which he was driving, a 1914 Buick, was struck by a 1914 Buick driven by T. J. Pace, chauffeur for Frank P. MacLennan, just as Darling was crossing the west side of Kansas avenue to drive into the North Star garage, 909-11-13 North Kansas avenue. Mrs. Darling, who was in the tonneau of the car driven by her husband, is suffering with a wrenched back and bruises. Both will recover.

The accident occurred during a driving race. Pace was going south on Kansas avenue, and was driving fast, according to his statement, and one made by Darling this morning. When a short distance from the Darling car he made an effort to turn out and avoid the car as it was crossing into the garage, his car skidded, sidwiped the Darling party and shot toward the center of the street into a steel trolley pole. The MacLennan car was badly smashed in front and axle bent.

Pace was alone in the car and not on an errand for any one but himself. Four persons, Darling, his wife, Miss Jennie Reaser, Darling's sister-in-law, 705 Lime street, and Darling's 13 month old daughter, Thelma, were in the Darling car. The child was thrown to the pavement but was not hurt. Miss Reaser was bruised slightly on the side. Mrs. Darling sustained her injuries when the car was thrown across the tonneau door.

Immediately after the accident Mr. and Mrs. Darling were carried into the North Star garage and Dr. O. P. Davis was summoned. Later they were taken to the home of W. P. Reaser, 1503 East Sixth street, where they were resting fairly easy this morning.

Darling's Car Little Damaged. The Darling car was not seriously damaged. A damaged fender and a broken windshield were practically the only evidences it offered to the accident. Mr. MacLennan did not hear of the accident until 10 o'clock in the evening.

Mr. Darling stated today that he did not have time to maneuver his car to get out of the way. "Then," he added "the cars sidwiped. I don't remember anything more until I regained consciousness in the garage."

The driver made no effort to leave town or avoid responsibility and is greatly distressed over the accident.

Referring to the accident T. J. or Jack, Pace, the driver, said today: "After I left Mr. MacLennan's home, 1013 Topeka avenue, about 5:30 last evening, I was alone in the car. I drove to 314 Skyway street, North Topeka, to get a Mrs. Brown as a nurse for my mother who has been very sick for a week. On finding Mrs. Brown at home, I started for our garage at 514 Jackson street. It was raining and I naturally hurried and must have been going faster than I should have driven but not 35 miles an hour or anything like it. Just before I came to the North Topeka garage,

nearly opposite the fire station, there was an automobile coming toward me on the opposite side of the street. Just before I got in front of the garage and when about 25 or 30 feet from me, the automobile suddenly cut across the street, not making a square turn, but cutting across and in front of my car. In order to avoid a collision, I turned my car suddenly to the left, struck the side of the other car and ran down the iron street railway pole in the middle of the street. My car was pretty badly damaged. I was not hurt except by the shock.

"I immediately stopped what I could about the accident and stayed until the people who were hurt were cared for. I then telephoned to the garage where our car, Sept. 214 Jackson, was being repaired. The damaged car there, later, reporting at the police station and going to our garage and returning to North Topeka with the work car. Feeling sick, I went home and stayed there until this morning."

Mr. MacLennan said: "Jack Pace has been in my employ as driver of automobile for just a year. He has been entirely trustworthy, faithful and has never caused me any trouble before. He is an exceptionally capable driver, sober and industrious and belongs to a well known respectable colored family. He lives at 1029 Woodward avenue."

MISS CLARK'S WEDDING

(Continued from Page One.)

daughters, of Mr. and Mrs. Champ Clark, and Mr. Thomson is scheduled to take place at 4 o'clock this afternoon in the garden of "Honeyshuck," the speaker's home here. The guests include the Missouri delegation in the U. S. House of Representatives, many prominent in the life of the nation and hundreds of native Missourians.

Governor and Mrs. Elliott W. Major and Senator W. J. Stone and Mrs. Stone will be among the honor guests. Others include Colonel Henry Watterston of the Missouri National Guard, Mack, and Colonel and Mrs. George Harvey.

The wedding presents, which have been placed on the veranda of the Clark home so the guests may see them, came from the president of the United States, both branches of congress, many government officials, the employees of "r. Thomson's paper, and scores of friends of both the bride and groom.

The wedding will take place under the old locust trees surrounding the Clark home, where a white Gothic temple has been erected. The Presbytery of the city has been asked to decorate, and in the event of inclement weather, the ceremony will be there.

The Rev. Robert Sherman Boyd, pastor of Lee Memorial church, Louisville, Ky., cousin of Miss Clark, will perform the marriage.

In a Wilderness of Flowers. The bridegroom will make his way from the veranda of the Clark home down the flower bordered walk, across a rustic bridge to a spot known as the "funnel." There the smaller shrubs and flowers are overtopped by the largest of trees known as the Honeyshuck. The hollyhocks of Honeyshuck are famous in Pike county and Miss Clark, before her wedding, were in full bloom for the wedding.

The bridesmaids will be Miss Dorothy and Miss Imogen Thomas of Summit Point, W. Va., sisters of the groom; Miss Jean Roberts, Alexandria, Va.; Miss Murray Sanderson, Bowling Green, Ky.; and Miss Susan Bennett, Kansas City.

Paul Thomson, brother of the groom, will act as best man.

Speaker Clark will give his daughter in marriage.

Gowns of Simple Make. The gowns worn by the bride and her attendants are to be simple, in line with the outdoor wedding ceremony. The bride's dress is a satin, veiled in illusion.

The Clarks had issued a general invitation to all Missourians to attend, and every train coming in yesterday afternoon and this morning brought scores of guests. Citizens came from Bowling Green from all parts of Pike county.

On the lawn west of the Clark home a large dance pavilion has been built for the entertainment of the guests after the wedding.

Rich Gift from Wilson. Gold, silver, gems, valuable rugs and lace, furniture, cut glass and numerous other gifts comprised the gifts from the president of the United States. The gift of President Wilson was a pair of diamond earrings.

The citizens of Leavenworth sent a solid silver floral centerpiece. It was selected by Senator Stone. On one side Miss Clark's monogram is engraved. The other side reads: "Miss Clark's wedding, June 30, 1915."

Pike county folks sent a case of flat silverware, while the citizens of Bowling Green presented an oil painting of a Missouri rural scene and a Kansas City clock. Hundreds of other presents were received.

After a wedding trip to northern resorts, Mr. and Mrs. Thomson will go to New Orleans.

Sleeping Cars for Guests. To provide quarters for the hundreds of guests whom the townspeople could not entertain, sleeping cars were sidetracked in the local railroad yards. The citizens of Louisiana, Mo., the largest city in Speaker Clark's congressional district, sent a mahogany chest containing 181 pieces of silver. The town of Kansas City, Mo., sent the New Orleans item sent a silver tablet, a facsimile of the first page of the item.

The town of Bowling Green was greatly decorated for the wedding. Flags were flying today from every window and hundreds of yards of bunting adorned the business district of the town. Every lawn and street was spick and span, for the mayor had issued a proclamation calling on the townspeople to clean up for the wedding.

Among the well known persons who arrived today to witness the ceremony was Congressman William H. Brown, Republican leader in the house of representatives.

Senator Reed and Senator Stone came on a special train.

K. C. St. Louis Rock Road. Kansas City, Mo., June 30.—Construction of a rock road across Missouri from Kansas City to St. Louis within a year is the incentive which caused J. M. Lowe, president of the Missouri Rock Road, to issue a call today for a meeting here July 9 to start a campaign for such an improvement.

EDITOR PANS H. S. BABCOCK IS OUT

Frye Case, Like That of Lusitania, Is "Settled."

No Deviation From Principles Laid Down, Says Rundschau.

TEUTONS TO USE OWN MEANS

Newspaper Refers With Contempt to American Insistence.

Will "Look Over" Last Note as Perfunctory Courtesy.

Berlin, June 30.—A Reuter dispatch containing a summary of the United States note asking Germany to reconsider her refusal to settle by direct diplomatic negotiations the claim arising from the sinking of the American ship, William M. Frye, is printed without comment by the Berlin Rundschau. This paper introduces its article by saying:

"Along with the Lusitania incident which, it is true, is settled, so far as we are concerned but is to be looked over again for America's sake, comes the case of the ship Frye. It is not without comment by the Berlin Rundschau. This paper introduces its article by saying:

"The Rundschau asks what more America wants than an offer to pay damages. The paper answers its own question by saying: 'It wants to influence the German method of marine warfare in favor of England, and absolutely nothing else can be said.'"

Rejection by the United States of the proposal for prize court proceedings, the Rundschau contends, is not due to the newspaper's opinion that damages must be fixed by a prize court and continues:

"Finally, the American standpoint that Germany has not the right to hinder the shipment of contraband on American ships simply cannot be considered by us. Germany has this right unconditionally, for it is dealing in the protection of its most urgent interests. As to the means wherewith it sees fit to put this right into execution it does not need any instruction from the United States any more than in the Lusitania case. We offer to pay full damages, and have said so. The only thing that is settled so far as we are concerned, at least in principle."

ROSEDALE WINS

The Medical School Has a New Building Completed

In Defiance of Gov. Capper and the Legislature.

Members of the state board of administration have completed a new building for the Rosedale medical school over the protests of Governor Capper and members of the legislature. The \$25,000 appropriation for a new building in 1913 was never wiped from the books and in the last few weeks the board has spent the money and the medical school has a building.

When the campaign for slashing appropriations was launched by Governor Capper, the Rosedale medical school was present with the exception of five months when he was recovering from injuries received while on duty, he has been in a water tower high building. In 1916, the volunteer department was reduced to sixteen men and the city gave them permanent employment. Two years later the department was moved to what is now the rear of the Security building on West Seventh street. As there was still no fire alarm system maintained, a man was kept in the tower high building. The tower had been built for the drying of hose.

Babcock received severe burns and carried the scars of an accident which occurred twenty-five years ago. He was driving a fire team up an alley when a burning barn fell. Both horses and driver were killed.

When the top floors of the Santa Fe office building burned twenty-six years ago, Babcock was rendered unconscious and was in the tower high building. He was on a fire escape when the walls crumbled. Firemen lost control of the hose which was writhing with a stream of water under high pressure. Babcock was knocked from the fire escape. He was rendered unconscious another time when he fell in front of a steam locomotive. He was in a tempting to swing on a hook and ladder wagon. He has been in several accidents in which fire wagons were smashed and the driver killed. He has been having been smashed by a falling joist. At another time his collar bone was broken.

The \$25,000 appropriation of two years ago was not regarded as sufficient to erect a new building. For that reason the money was not used. The legislature, however, has decided to have no new building, the administration board got busy. It found that the 1913 appropriation act was in effect until the end of the fiscal year. The fiscal year ends at midnight tonight.

The legislature, however, has decided to have no new building, the administration board got busy. It found that the 1913 appropriation act was in effect until the end of the fiscal year. The fiscal year ends at midnight tonight.

Fred Lewis of Marion, sergeant at arms in the house during the recent legislative session, has been in Rosedale for the last several weeks, where he performed the services of building inspector. Lewis stated to Auditor Davis that the building has been completed and the work accepted.

GOOD FOLK FOR SLATON

Georgia's Ex-Governor, in New York, Says Only Mob Gave Trouble.

New York, June 30.—Former Governor John M. Slaton of Georgia, declared in a statement here Tuesday night that the good people of Georgia approved his action in signing the death sentence of Leo M. Frank to life term in the penitentiary. Only the mob caused him trouble, he said. He added that time would show the right and wrong in the Frank case.

Mr. Slaton, who was accompanied by his wife, arrived here Tuesday night. He will spend a few days in the Adirondacks and will leave next week for San Francisco. He expects to return to Atlanta on September 1. "It is untrue that I was caused any serious inconvenience by the demonstrations in Atlanta," Mr. Slaton said. "I attended to my duties there as usual. I practiced law in Atlanta for twenty-eight years before I became governor and I shall practice there again in the fall."

Mr. Slaton said he came to New York merely on a pleasure trip.

Pennsylvania last year recorded 14,167 accidents to workers in metal industries.

TODAY'S MARKET REPORT.

Chicago, June 30.—WHEAT—Bullish estimates on the domestic winter crop turned the wheat market up grade today after an early decline. The total wheat crop of seven principal states was figured at nearly 4,000,000 bushels less than the amount realized in 1914. A big reduction in the exportable surplus of India coupled also against the bears. Opening prices which ranged from 10c to 12c lower than the previous day's closing were followed by a slight additional sag and then an advance to well above the previous day's closing.

Reports of damage by night's lightning in Oklahoma, Kansas and Missouri led to a further decline in the market. The estimate of new crop purchases from first hands tended likewise to engender bullish sentiment. The close was firm at 11c to 11 1/2c above last night.

CORN—Corn hardened with wheat. The beginning, however, the market had downward slant owing to favorable weather and to better crop reports. After opening unchanged to 1/2c lower, prices scored moderate net gains.

The bearish nature of the government week report set later as a check on the bulls. The close was nervous, 1/2c to 1/2c net higher.

OATS—Oats reflected the course of other cereals. Trading was mainly between pit speculators.

PROVISIONS—Higher prices for hogs had the provision market up. After opening 1/2c higher, the market was followed throughout the week showed a decided falling off compared with the corresponding time last week and a year ago.
